## Riverside Technology, inc. (Riverside)

Riverside Technology, inc. (Riverside) is an internationally recognized engineering, science, and information technology company with 30 years of experience providing innovative solutions that address our clients' needs for environmental data, models, and systems to help people make decisions regarding the environment. Specializing in data collection, management, analysis, visualization, and dissemination, Riverside delivers these solutions based on a variety of data sources—from satellite sensors and imagery to stream gages in local rivers. Riverside is one of the National Oceanic and Atmospheric Administration's (NOAA) premier science and technology contractors, bringing to bear a team history of innovation and efficiencies. We've partnered for more than 20 years to support NOAA offices including the National Environmental Satellite, Data, and Information Service (NESDIS), the National Weather Service (NWS), the National Marine Fisheries Service (NMFS), the Office of Atmospheric Research (OAR), and the National Ocean Service (NOS).
